

# JOB SAFETY ANALYSIS

Safety Information for the University of California, Berkeley

## RECREATIONAL SPORTS - CAL ADVENTURES TOWING TRAILERS/MOBILE WALL

Note: Drivers must have a California Class B license.

TASK	HAZARDS	CONTROLS
Cranking trailer up/down.	Back injury from being in low position	Bend knees to lessen pressure on lower back. Use arm to support body on leg.
Positioning vehicle in front of trailer.	Injury from car accident	Fasten seat belt before driving. Obey all traffic regulations. Practice defensive driving.
	Injuries to others	Be aware of surrounding personnel. Communicate to surrounding personnel.
	Foot injury	Be aware of moving vehicles. Keep feet away from moving vehicles.
3. Snapping down lock.	Pinching fingers	Keep fingers away from clamp area of lock.
	Back injury from being in low position	See above for more information
4. Securing pin through hole.	Back injury from being in low position	See above for more information.
5. Plugging lights into vehicle.	Potential eye injury from cord being in poor condition and causing sparks to fly	Inspect integrity of cord before plugging in. If in poor condition, either repair or do not use. Don't work with electrical connections if you are under the connection unless you have eye protection.
6. Hooking safety chain onto car.	Back injury from being in low position	See above for more information.
	Finger injury	Be careful of tip of hook. Do not hold hook by sharp tip.
Required Training: Valid California Driver's License	Required Personal Protective Equipment (PPE) Eye protection
